- * Do not apply to broken or irritated skin
- * Discontinue if irritation or redness of skin develops
- * For external use ONLY.
- * Store in a cool dry place away from direct sunlight; out of sight and reach of children.

Osteoflex Plus Tablets

Osteoflex Plus formulation provides nutritional support for healthy joints and cartilage. A unique

combination of high grade Glucosamine, Chondroitin Sulphate and Hyaluronic Acid with added Vitamin C, Turmeric and Manganese to help maintain supple, flexible joints, strong cartilage and a healthy skeleton. Suitable for men and women of all ages.

Osteoflex Plus may be of benefit to:

- ☞ Elderly people who need to nourish their joints and rebuild cartilage to ensure flexibility.
- ☞ People who experience pain, stiffness or swelling in their joints (especially knees sufferers).
- ☞ People who experience arthritic back and neck pain.
- ☞ Athletes who need to provide extra support to their joints to avoid injuries.

Each Osteoflex Plus Tablet contains (average):

Glucosamine Sulphate	500mg
Chondroitin Sulphate	400mg
Vitamin C	100mg
Manganese	2mg
Turmeric (Curcuma longa) powder equivalent	100mg
Hyaluronic acid	55mg

INGREDIENTS FOR Osteoflex Plus TABLETS:

Glucosamine Sulphate (2KCl), Chondroitin Sulphate, Bulking Agent (microcrystalline cellulose, di-calcium phosphate, maltodextrin), Vitamin C (ascorbic acid), Glazing Agent [polyvinylpyrrolidone (PVP), hydroxyl propyl methyl cellulose (HPMC)], Hyaluronic Acid, Anti-caking Agent (veg. magnesium stearate), Curcumin 10:1 Extract [derived from turmeric (Curcuma longa)], Manganese Sulphate.

Recommended Daily Intake of Osteoflex Plus Tablet:

Adults and children over 12 years of age, **one to two tablets daily** with a main meal. Do not exceed recommended daily intake unless advised by a suitably qualified person.

Caution:

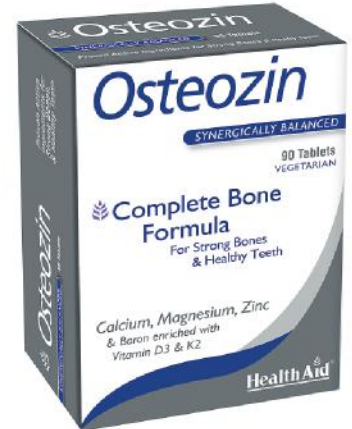

Diabetics should consult a doctor before taking this supplement.

Allergen Information:

Do not take this product if allergic to shellfish.

Osteozin (New Bone Formula) - Bone Health

HealthAid Osteozin provides Calcium, Magnesium, Zinc and Boron to support optimum bone health with the added benefits of Vitamins D3 and K2, essential for the maintenance of healthy blood calcium levels and its efficient utilization by the body. Osteozin is specially formulated using a synergistic blend of active ingredients to ensure maximum assimilation and efficacy. Calcium plays an important role in the development and maintenance of strong healthy bones and teeth. Magnesium is necessary for the metabolism of calcium and is useful in supporting normal muscular function. There is evidence that people who experience cramps are likely to have low levels of magnesium. Zinc and Boron are needed to maintain optimal bone density and healthy joints.

- **Calcium and Magnesium** contribute to the maintenance of normal bones and teeth and are needed for normal muscle function
- **Zinc** supports the normal function of the immune system, contributes to normal DNA synthesis and to the maintenance of normal bones
- **Vitamin D3** contributes to the absorption and utilization of calcium and phosphorus, and maintenance of normal teeth and bone density. Vitamin D3 also contributes to the maintenance of normal muscle function and a healthy immune system
- **Boron** helps prevent calcium loss and bone demineralization. Studies have shown that 3mg of boron daily reduces urinary excretion of calcium and magnesium, especially when dietary magnesium is low.
- **Vitamin K2** contributes to the maintenance of normal bones. This vitamin works synergistically with D3 to help prevent calcium from depositing into the arteries instead of the bones.

Three OsteoZin Tablet Contain (average):

Calcium (as calcium carbonate, citrate)	555mg
Magnesium (as oxide, citrate)	353mg
Zinc (as citrate)	15mg
Vitamin D3 (as cholecalciferol)	15mcrg
Vitamin K2 (as menaquinone-7)	75mcrg
Boron (as sodium borate)	3mg

INDICATIONS

- Low Back Pain
- Osteoporosis
- Rheumatoid Arthritis
- Osteoarthritis and Injuries
- Growing Children
- Pregnancy & Breast Feeding
- Elderly Men and Women
- During and after the menopause

Adults and children over 12 years of age 2-3 tablets daily after meal.

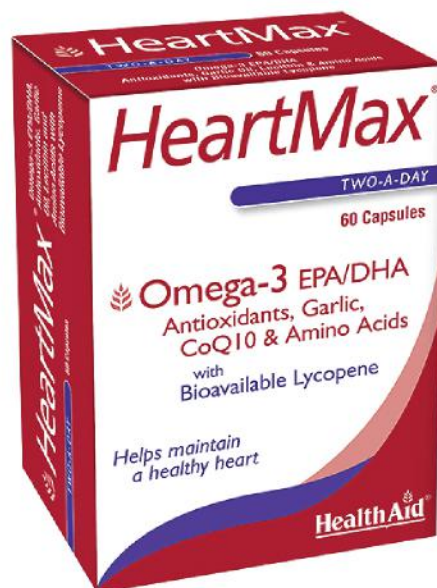

Do not exceed recommended daily intake unless advised by a suitably qualified person.

INGREDIENTS FOR OSTEOZIN VEGI. TABLETS:

Calcium (calcium carbonate, calcium citrate), Magnesium (magnesium oxide, magnesium citrate), Zinc Citrate, Vitamin D3, (cholecalciferol) Vitamin K2 (as menaquinone-7), Sodium Borate, Anti-caking Agent (silica, magnesium stearate), Bulking agent, [microcrystalline cellulose, hydroxyl propyl methyl cellulose (HPMC)], Stabiliser (croscarmellose).

*This amount of Magnesium may cause mild stomach upset in sensitive individuals.

IF YOU'RE SEARCHING FOR THE MOST ADVANCED TREATMENT FOR SCARS, YOU'VE FOUND IT !

XERAGEL™ **Silicone Gel Ointment** for keloid and hypertrophic scars

Xeragel is a 100% silicone ointment, designed for convenient, regular application over small scars. Perfect for discreet application on scar treatment sites where silicone gel sheeting would be inconvenient, impractical, or unsightly.

xeragel™

Silicone ointment for beautifully Healed Skin

The effectiveness of XERAGEL™ with the convenience of an ointment

Designed for:

• Hands & Arms • Face • Neck • Elbows • Feet & Ankles

Active Ingredients: Medical Grade Silicone.

FEATURES & ADVANTAGES

- Made by the number one leading manufacturer of silicone-based scar treatment products in the USA.
- Contains 100% silicone, the ONLY proven topical scar management ingredient. Proven scar reduction in a convenient ointment. The original plastic surgeon and burn center recommended silicone scar minimizing ointment.
- Clinically proven safe and effective scar reduction product - significantly reduces the appearance of existing scars, and helps prevent the formation of new scars.
- Xeragel is intended for the management of old and new scars, including hypertrophic and keloid scars, resulting from surgery, acne, trauma, wounds, cosmetic procedures, C-sections, cuts and burns.
- Fits conveniently in purse or pocket.
- Fragrance free and dye free.
- Silicone formula is superior to other scar removal creams.
- Hypoallergenic--excellent for sensitive skin.
- Perfect scar treatment for face, and other exposed skin such as neck, arms, elbows, legs, ankles, feet.
- Easy to use and comfortable to wear. Good for any skin tone.
- Xeragel is suitable for use on children, and is a great scar ointment for men and women.
- This 10gm tube is enough for 30 days effective treatment of a 3-4 inch scar.
- Proven by the American Academy of Dermatology (AAD) to be superior to products based on onion extract (allium cepa or Cepalin).

**A patient with hypertrophic scar
before and after treatment**

**A patient with burn scar
before and after treatment**

**A patient with minor keloid
before and after treatment**

Xeragel™

Silicone ointment for beautifully Healed Skin

Why Should You be Afraid of Scars?

If

Is There.

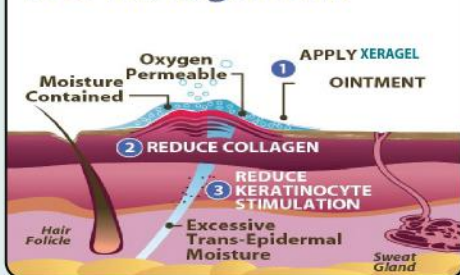

INDICATIONS :

1. Burn & Plastic Surgery
2. Oral & Maxillofacial Surgery
3. Head & Neck Surgery
4. Cardiac Surgery
5. Acne Scar
6. Hypertrophic Scar
7. Old Scar
8. Keloid
9. All Surgical Scar

"How does it work?"

Scars need an "ideal healing environment," meaning the appropriate balance of moisture and maximum exposure to oxygen. **Xeragel™** is a fully-encapsulating gel. It completely covers the scar treatment site for uniform treatment of the entire site. Although the entire site is covered, **Xeragel™** is semi-permeable when applied, allowing oxygen to enter while keeping excess moisture out, the ideal environment for healing scar tissue.

Scar Management

INSTRUCTIONS FOR USE

1. Clean and dry the scar site before each application.
2. Apply **Xeragel** liberally over the entire scar.
3. Repeat several times daily for 8-12 weeks or until scar stops responding.
4. To remove, wipe off with a clean cloth or tissue.
5. Recommended storage conditions are 55°F – 95°F (13°C-35°C).
